Profile

Hello, I am Ishan, a third-year student at VIPS-TC, deeply passionate about technology, the cosmos, and football. My diverse skill set includes web development and machine learning, where I excel.

In addition to my broad interests, I possess proficiency as a data analyst and Flutter developer. My contributions to various start-ups have encompassed roles such as Business Development and Public Relations, Consulting Intern, UI/UX Designer, Business Analyst Quality Assurance, and Data Analysis. This wealth of experience has not only refined my communication and public speaking skills but also equipped me to excel in the realms of data analysis and mobile app development.
